

Introduction to Shamanism – Into the Heart with Michele Cempaka

May 6 – 11, 2017 (**actual program falls on 7-10**)

Shamanism brings us back to our original state which is oneness with the Universe. As we connect with our nature Spirits, Power Animals and other Helping Spirits, we delve deeper into discovering our true nature -- **opening the doors of perception** so that we can truly be empowered.

You will learn/experience:

- ✚ How to create a sacred sanctuary through intention & visualization to begin your Shamanic journeys
- ✚ Tools for grounding, clearing, centering, gathering energy, protection
- ✚ Healing drumming for a partner/friend/client
- ✚ How to journey to the Upper world where you will meet your Spirit guides, ascended masters and perhaps angels or archangels if you are drawn to them in your ordinary reality life.
- ✚ How to journey to the Elemental world where you will meet your totem animal guides, other Spirit guides. ***In both LW & UW we have the opportunity to receive wisdom & healing from our guides.**
- ✚ Daily 'Soul Song' practice to connect with our Soul and be more empowered in ourselves and our lives.
- ✚ How to 'Pass the Power' to someone else for their healing and regeneration.
- ✚ Beginning healing practice which includes Reiki if you know this and if not, then just working with your Spirit guides to help your partner. (*Reiki is not required for healing but it can enhance your Shamanic healing practice if you already have this skill)
- ✚ How to fully connect with our totem animal guides using our rattles and intention.
- ✚ Distance Shamanic healing
